

Ezone Duo Chair

Product Specification

The Ezone Duo is excellent seating for your entire office. Quality materials, Australian made dual density seat foam that is built to last, the Ezone is a stylish ergonomic seating option that is highly customisable to the operator. Available with 2 seat widths & 2 backrest options this chair is highly catered to each person.

The fully ergonomic 4 point adjustment mechanism allows seat tilt, back tilt, seat height and back height all adjustable individually from the seated position. An additional point of adjustment can be added to the depth of the seat with the addition of a seat slide.
