

Jewel Chair Family

Product Specification

The Jewel chair family is a versatile collection of chairs suitable for visitor areas, breakout spaces, waiting rooms, meeting rooms, reception areas, task seating and lunchrooms. With its strong single-molded shell, it provides durability and ergonomic support for extended sitting periods.

The Jewel chair family offers a variety of base options to suit different applications. Choose from 4 metal leg, metal sled, timber 4 leg, swiss 4 leg base with castors, 5-star task base and stool height sled base. Each base is designed for stability and functionality, ensuring a seamless seating experience.

The Jewel chair family is certified by GECA and CATAS, meeting stringent industry standards for sustainability and performance. It is stackable up to 10 chairs high, making it easy to store and optimise space when not in use.

With a recommended weight capacity of 140kg and a 10-year warranty, the Jewel chair family provides reliable seating for a wide range of users. Customise your chair with various upholstery options, including seat pads, flat full upholstery and ripped full upholstery, to match your design preferences and enhance comfort.
